PROFILE SUMMARY

I am a Frontend Developer who builds responsive, scalable web applications using React, Next.js, TypeScript, and Tailwind CSS, with experience delivering production-ready projects such as CareFinder and StartupIQ. I graduated from AltSchool Africa's Frontend Engineering program, where I strengthened my problem-solving skills by building real-world applications with modern frontend technologies. I am seeking to join a collaborative engineering team where I can contribute to impactful products while continuing to grow as a frontend engineer.

TECHNICAL SKILLS

Tools: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Supabase, Git & GitHub, Vercel
Core Competencies: Responsive Web Development, Component-Based Architecture, API Integration, State Management, Performance Optimization, Cross-Browser Compatibility

HIGHLIGHTED PROJECTS

CareFinder

• Built a civic healthcare platform that enables Nigerians to search, filter, and discover hospitals using interactive maps and advanced search features.
• Developed responsive interfaces with React, TypeScript, Tailwind CSS, TanStack Query, Supabase, and Resend API, including secure authentication and role-based administration.
• Deployed a production-ready platform currently used by 11 users.

StartupIQ

• Built an AI-powered startup validation platform using Next.js, React, TypeScript, Tailwind CSS, and Supabase.
• Integrated AI-generated SWOT analysis, opportunity scoring, competitor insights, Google Authentication, and analysis history into a responsive dashboard.
• Successfully deployed the platform, supporting 22 users.
